FARMER GETS CONTENTS OF HIS OWN SHOTGUN

Cynthiana, Ky., Nov. 4.—Wesley Ireland, a farmer of the Lees Creek neighborhood, this county, was fatally shot to-day by the accidental discharge of his shotgun that he was carrying on a wagon load of corn. He was gathering corn and had taken the gun to the field with him to shoot rabbits. As he was leaving the field he put the gun on the load with the gun barrel resting against the wagon seat. The gun was jarred down, and as Ireland grabbed it the hammer was knocked back and the gun discharged, the contents taking effect in his side, tearing away part of his lung. Ireland was 38, married and had one child.

\$15,000 VERDICT AGAINST TENNESSEE NIGHT RIDERS

Nashville, Tenn., Nov. 4.—After five hours deliberation the jury in the Robertson county night rider case, styled Thomas Meneses vs. T. J. Matthews and others, this afternoon returned a verdict awarding the plaintiff \$15,000 damages, \$1,500 actual for the destruction of his threshing machine and other injuries and the remainder for punitive damages.

The Next Governor of Kentucky.

HON. JAMES B. McCREARY.

McCreary Wins in the State, and Republicans in Ohio County by a Greatly Reduced Majority—Result in Other Counties.

The election in Ohio county passed off quietly yesterday, but with intense interest manifested by all the voters and managers concerned. There was a large crowd in Hartford all day and the election officers were kept busy. The negro was everywhere in evidence and his Republican bosses kept him well in hand. He had been told by his bosses that if he failed to vote the Republican ticket, it would probably put the Democrats in power and he would not only be disfranchised, but would be put into slavery again. This seemed to have its effect and several darkies were heard commenting on it, as if in much fear. It seems strange that at this late day the negro should be deluded into continuing to surrender his body and soul into the keeping of his Republican bosses when he must see that they have no use for him except at election times, and that the Democrats are really his best friends.

Here in Hartford some of the Republican managers and election officers resorted to some of the most dastardly and high-handed meth-

ods to keep Democrats from voting. A few of these methods were no less than infamous, as attested by numerous citizens, both Democrats and Republicans. They did not stop to attempt any low down trick to thwart the suffrage of a Democrat if possible. Most of these however, failed. There is a sense of justice and right in every honest man's heart, and no matter his politics, he will not hesitate to express it. One Republican was heard to say that his party could not hope to prosper under such unfair and infamous methods.

The much boasted of 800 majority for O'Rear in this county did not materialize. In fact, it did not amount to a fourth of this number. Four years ago the Republicans carried this county by 627 for Willson. This year it will be less than 200. At a late hour last night, with all precincts in the county heard from except two, O'Rear's majority was 150, with Leach running 25 votes behind him. M. T. Westerfield, the Democratic candidate for Representative, led his party's ticket and got more

Colombian Government Issues Bitter Decree

AGAINST THE UNITED STATES

Because of Canal Zone Acquisition—The Purchase Galls Officials.

VERY REMARKABLE DOCUMENT

New Orleans, Nov. 6.—An interesting chapter in the controversy which grew out of the acquisition by the United States of the canal zone is contained in an official document of the Colombian government, a copy of which was received here to-day. In an official decree designated to instill into the youth of Colombia a bitter hatred of the United States and Panama through public instruction, Jorge Willis Prudilla, a director general of public instructions of the Department of Boyaca, declares that former President Roosevelt "was the soul of the conspiracy" which resulted in wresting Panama from the republic.

The decree gives the language in which the history of the Panama rebellion shall be taught in all public schools and colleges of the department. After giving the names of the leaders of the rebellion, all of whom, it is declared, were "sponsored by Yankee gold," the decreed history continues:

"In the preparation and realization of their criminal intent, they were efficiently aided by adventurers of the worst stripe, such as Manuel Amador Guerrero, a native of the city of Cartagena; Frederick Boyd, an American, and the Frenchman, Felipe Buncan Varilla, for whom the operation of the sale of the canal enterprise to the United States had to produce filthy lucre and the Colombians, Estoban Huertas and Reuben J. Varon, obscure, ignorant and mercenary soldiers.

"The United States, whose President, Theodore Roosevelt, was the soul of the conspiracy, hastened to recognize the pseudo Republic of Panama and to snatch the zone for the sums agreed upon. Availing itself of its influence, it followed that many European and American States equally recognized the Republic of Panama; and, abusing its material power and violating the public faith, pledged in solemn treaties, as that celebrated with new Canada in 1846, by which it bound itself forever to maintain the sovereignty of Colombia upon the isthmus of Panama in exchange for invaluable concessions, prevented the Colombian nation from submitting to force those traitors with whom the United States has committed one of the greatest acts of perfidy, violence and rapacity registered in the annals of the history of the nations.

"Colombia has not recognized the existence of the Republic of Panama, reserving that in order to make valuable its rights in better times. All pupils without any exception shall learn from memory the foregoing account."

votes than did McCreary. The Socialist candidate for Representative, Mr. Chapman, polled 375 votes in the county, with two precincts yet to hear from. These two precincts—Magan and Sulphur Springs—will not materially change the vote in any race.

The State of Kentucky goes for McCreary by from twenty-five to thirty thousand. Louisville gave him a majority of between five and six thousand. The Democrats carried every Congressional district except the Eleventh.

Daviess county goes Democratic by 1,600 and the city of Owensboro by 200. McLean county gives a Democratic majority of 128, Henderson county 1,300 and Hopkins county 700. Muhlenberg county gives the Republican ticket a majority of 175, while Hancock goes 108 and Butler 600 the same way.

The Legislature will be about 100 Democratic majority on joint ballot, which insures the election of Hon. Ollie James to U. S. Senate.

The Democratic City Council ticket was elected by 35 to 40 majority.
